Greater Sydney Landscapes: Knowledge Base for Kiley (Conversation AI)

This document is the approved source of facts for the Greater Sydney Landscapes chat assistant. Everything here matches the website at www.greatersydneylandscapes.com.au. If a question is not answered here, the answer is “Daniel will need to confirm that.”

---

1. About the business

- **Business name:** Greater Sydney Landscapes (often shortened to GSL).
- **Owner and main contact:** Daniel Longo. Daniel is the point of contact from the first quote to the final invoice, and arranges all bookings.
- **Based in:** Toongabbie NSW 2146. The business does not publish a street address.
- **What we do:** lawn mowing, hedge trimming, garden maintenance, weed spraying, plant and lawn fertilising, pressure washing, landscaping projects and ride-on mowing.
- **Who we work for:** homeowners, landlords and tenants, strata and body corporate committees, property managers, real estate agents, and commercial sites such as offices, medical centres, childcare centres, churches and retail sites.
- **Crew:** a small local crew. The people who quote a property are the people who turn up to do the work. No strangers, no guesswork.
- **Insurance:** fully insured with public liability cover for residential, strata and commercial sites. Certificates of currency can be sent to strata managers and property managers on request.
- **Equipment:** push mowers, ride-on mowers, pole hedgers, sprayers and commercial pressure washers. We bring our own equipment and fuel.
- **Green waste:** green waste is removed and taken away on mowing, hedge trimming and garden maintenance jobs. Customers who want to keep lawn clippings for compost or mulch can ask us to leave them. Green waste is mulched or composted.
- **Sustainability:** water-wise planting, green waste mulched or composted, and no more fertiliser or spray on a lawn than it needs.

2. Contact details and hours

- **Phone:** 0452 586 355
- **WhatsApp:** 0452 586 355
- **Email:** info@greatersydneylandscapes.com.au
- **Website quote form:** www.greatersydneylandscapes.com.au/contact/
- **Google reviews:** customers can read reviews on the Greater Sydney Landscapes Google Business Profile.
- **Facebook and Instagram:** @greatersydneylandscapes
- **Hours:** Monday to Friday 7:00am to 5:00pm. Saturday 7:00am to 2:00pm. Sunday closed.

- **Reply time:** we reply to enquiries within one business day, usually the same day.
- **Before each visit:** we send a text before we arrive.

3. How quoting and booking works

1. **Tell us what you need.** Send the suburb or address, a photo if you have one, and which services you are after. It takes a minute on the quote form, in the chat, or with a quick call.
2. **Get a fixed price.** Daniel quotes from the details and photos or from a quick site visit, and confirms a schedule that suits you. The price is fixed before any work starts. No hourly surprises.
3. **We turn up and keep turning up.** You get a text before each visit, a tidy property afterwards and one simple invoice. You can change the schedule at any time.

Good to know:

- **Quotes are free.**
- **Prices are not published.** Every property is different, so Daniel gives a fixed price per job or per visit after seeing the details.
- **Bookings and dates:** Daniel arranges every booking and start date himself. The chat assistant cannot book a time, see the calendar or confirm availability.
- **Invoicing:** one simple invoice at the end of each visit or once a month, whichever the customer prefers. Strata and commercial clients on a schedule get one monthly invoice.
- **New customers:** most new customers can be fitted in within the week.

4. What affects the price

Daniel gives a fixed price after seeing the job. These things affect it:

- **Size of the area:** lawn area, number of hedges, length and height of hedges, size of the driveway.
- **How often:** regular customers on a fortnightly round pay less per visit than one-off cuts.
- **Condition:** an overgrown lawn or garden takes longer the first time.
- **Access:** gates, slopes, stairs and narrow side access.
- **What is included:** edging, blowing and green waste removal are already included in lawn mowing.
- **Combining services:** doing the driveway, paths and patio in one pressure washing visit, or bundling mowing, hedges and garden care on one visit, is the most cost-effective approach.

5. Services

5.1 Lawn Mowing

Regular lawn mowing across Blacktown, Toongabbie, Seven Hills, Parramatta and The Hills. You pick the schedule and we keep to it.

Every visit includes:

- The mow.
- Edging along paths, driveways and garden beds.
- Whipper-snipping around fences, trees and posts.
- Paths and driveways blown clean.
- Clippings removed and taken away, or mulched if you prefer.
- Nature strips and front verges mown on request, so the whole frontage looks the same.

Schedules: fortnightly, three-weekly or monthly. Most customers are on a fortnightly round through spring and summer, then three-weekly or monthly in autumn and winter when growth slows. Daniel recommends a schedule when quoting and adjusts it through the year.

Lawn types: buffalo, couch and kikuyu lawns are the most common in Sydney.

5.2 Ride-On Mowing

Part of the lawn mowing service, for larger blocks.

- Ride-on mowers for properties over about 800 square metres.
- Suits acreage, paddocks, big backyards, corner blocks, nature strips, strata common areas, church grounds, sports fields and rural-residential blocks.
- Common in Dural, Kenthurst, Glenorie, The Hills and Hornsby.
- Edges and tight corners are finished with a push mower and whipper-snipper, so the whole property looks consistent.
- The job is done in a fraction of the time and priced accordingly.

5.3 Hedge Trimming

Hedge trimming for homes in The Hills, Hornsby, Dural, Parramatta and the Inner West.

Includes:

- Formal hedge shaping with string lines and levels, for straight faces and a level top.
- Height reduction on overgrown screens.
- Side trimming along fences and driveways.
- Boundary screens and privacy hedges.
- Pole hedgers and platforms for taller screens.
- All clippings removed from site, and paths and driveways blown down.

Common hedge plants: lilly pilly, murraya, photinia, viburnum, buxus and leighton green.

How often: fast growers like lilly pilly and murraya look best trimmed three to four times a year. Slower formal hedges such as buxus usually need two to three trims a year.

Overgrown hedges: most can be brought down in one or two stages, depending on the species and how far back it needs to go. Daniel will say honestly if a hedge is too far gone to recover.

5.4 Garden Maintenance

Scheduled garden upkeep for homes, strata and commercial grounds across Parramatta, The Hills, Blacktown and the Inner West.

A typical visit includes:

- Pruning and shaping shrubs and small trees.
- Weeding garden beds and paved areas.
- Edging and a general tidy-up.
- Mulching and bed top-ups.
- Seasonal tidy-ups and leaf removal.
- All green waste removed.

Hedge trimming, lawn mowing and fertilising can be added to the same visit, so one crew handles the whole property on one invoice.

How often: most established gardens stay in good shape with a monthly visit, with fortnightly visits through spring and summer when growth is fastest.

One-off clean-ups: yes. If a garden has got away from you, we can do a one-off tidy-up and then move you onto a regular schedule.

Strata and body corporate: common-area gardens, nature strips, entry plantings and lawns for apartment blocks and townhouse complexes around Parramatta, Westmead, Blacktown and The Hills, on a fixed fortnightly or monthly schedule with one monthly invoice. Pressure washing of common paths and driveways can be added to the same contract.

Commercial grounds: offices, medical centres, childcare centres, churches and retail sites across Western Sydney. Frontages kept presentable, paths and car parks clear of weeds and leaf litter, garden beds mulched. We are happy to work to a site induction or specific access hours.

5.5 Weed Spraying

Part of the lawn care service.

- Bindis in spring, clover and broadleaf weeds through summer, and winter grass once the weather cools.
- Registered selective herbicides that target the weeds and leave the lawn, applied by a trained operator and timed to catch weeds before they seed.
- A separate knockdown treatment for paths, driveways, gravel areas and fence lines.
- **Bindis:** treat in late winter and early spring before they set seed. Two treatments a few weeks apart usually clears them for the season.

- **Kids and pets:** we tell you how long to keep off the lawn, typically until the spray has dried, and we tell you the product used on every visit.

5.6 Plant and Lawn Fertilising

Part of the lawn care service.

- Slow-release lawn fertiliser in early spring and again in early autumn, with a lighter feed in mid-summer if the lawn is under heat stress.
- Applications are timed around rain so nothing is wasted.
- Plant fertilising for garden beds, hedges, natives and fruit trees on the same visit, so the whole property greens up together.
- Advice on watering and mowing height.
- After each lawn care visit you get a short note saying what went down and when to water.
- Lawn care can be bundled into a regular mowing round, or booked on its own.

5.7 Pressure Washing

High pressure cleaning for homeowners, landlords, real estate agents and strata managers across Parramatta, Blacktown, The Hills, Toongabbie and the Inner West.

Surfaces:

- Concrete and exposed-aggregate driveways.
- Pavers, patios, alfresco areas and pool surrounds.
- Paths, steps and retaining walls.
- Rendered walls, brickwork, Colorbond and timber fences, and outdoor furniture.
- Strata common areas: paths, driveways, car parks, bin areas, stairwells and entries.

How we do it: commercial pressure washers and surface cleaners that lift dirt, tyre marks, oil, moss and mould without streaking. Moss and mould are pre-treated so they do not come straight back. Pressure is adjusted for pavers, stone, render and timber so nothing is damaged. Loose sand between pavers can be re-sanded afterwards if needed.

Timing: a standard double driveway takes one to two hours including pre-treatment. Most driveway, path and patio jobs are done in a morning. Daniel gives a time estimate with the quote.

Common reasons: pre-sale and end-of-lease clean-ups, preparing for a repaint or new landscaping, and scheduled strata cleaning. One-off or scheduled.

5.8 Landscaping Projects

Landscaping across Parramatta and Western Sydney, from design through to the last barrow of mulch.

Includes:

- Garden design and planting plans.
- New lawns: soil preparation, then supplying and laying buffalo, couch or kikuyu turf to suit the site, or a seeded lawn.
- Garden beds with edging, and mulching.

- Native and low-maintenance planting, and hedges for privacy.
- Front yard and street-appeal makeovers.
- Ongoing maintenance once the project is finished.

New builds: bare-block landscaping for new homes in estates around Blacktown, Marsden Park, Kellyville and The Ponds is a large part of our project work, usually delivered in one or two stages. For renovations we work around the builders.

Timing: a front yard makeover typically takes two to four days. Larger new-build gardens run one to two weeks depending on size and materials. Daniel gives a timeline with the quote.

Plant choice: hardy natives, well-chosen hedging species and lawns suited to the aspect, picked to cope with Western Sydney clay and heat and to be realistic to maintain.

6. Service areas

Base: Toongabbie NSW 2146. Regular rounds run through these regions:

Region	Suburbs mentioned on the website	Typical work
Toongabbie (home base)	Toongabbie, Pendle Hill, Wentworthville, Girraween	Same-week mowing and garden care
Parramatta	Parramatta, Westmead, Harris Park	Lawn mowing, strata garden maintenance, landscaping
Blacktown	Blacktown, Seven Hills, Kings Langley, Prospect, Marsden Park	Regular mowing, ride-on mowing for larger blocks
The Hills	Baulkham Hills, Castle Hill, Kellyville, Bella Vista, The Ponds	Hedge trimming, acreage mowing, garden upkeep
Hornsby	Hornsby, Thornleigh, Normanhurst, Wahroonga	Established gardens, formal hedges
Dural	Dural, Glenorie, Kenthurst	Ride-on and acreage mowing, paddock tidy-ups, hedge reduction
Inner West	Strathfield, Burwood, Ashfield, Marrickville, Leichhardt	Compact gardens, pressure washing, tidy-ups
Wider Sydney	Across the Sydney metro	Larger landscaping projects and commercial grounds, by arrangement

Suburbs between and around these regions are often covered. Daniel confirms coverage for any suburb not listed. Most customers are within about 30 minutes of Toongabbie.

7. Frequently asked questions

How much does lawn mowing cost? It depends on the size of the lawn, how often it is cut and the condition. Edging and green waste removal are included. Regular customers on a fortnightly round pay less per visit than one-off cuts. Send a photo or the suburb and Daniel will give a fixed price.

How much does pressure washing cost? It depends on the surface, its size and how dirty it is. Daniel quotes from a photo or a quick visit and gives a fixed price before starting. Combining the driveway, paths and patio in one visit is the most cost-effective way to do it.

Do you give free quotes? Yes. Quotes are free and the price is fixed before any work starts.

How quickly can you start? Most new customers can be fitted in within the week. Daniel confirms the start date when he quotes.

What are your hours? Monday to Friday 7am to 5pm, Saturday 7am to 2pm, closed Sunday. Enquiries get a reply within one business day, usually the same day.

Which areas do you service? We are based in Toongabbie and service Toongabbie, Parramatta, Blacktown, The Hills, Hornsby, Dural and the Inner West, with larger landscaping projects across wider Sydney by arrangement.

How often should I have my lawn mowed? Fortnightly in spring and summer, when buffalo, couch and kikuyu lawns grow fastest, and every three to four weeks through autumn and winter.

Do you take the grass clippings away? Yes. Green waste removal is included in lawn mowing. If you would rather keep the clippings for compost or mulch, just say so.

Do you mow nature strips and front verges? Yes. Most customers have the nature strip mown as part of the regular visit.

Can you mow a large block or acreage? Yes. Ride-on mowers for blocks over roughly 800 square metres, including acreage in Dural, The Hills and Hornsby, with edges and tight spots finished by push mower.

Do you do one-off jobs or only regular rounds? Both. One-off mows, garden clean-ups, hedge trims and pressure washing are welcome, and we can move you onto a regular schedule afterwards if you want.

How often should hedges be trimmed? Lilly pilly and murraya three to four times a year. Buxus and slower formal hedges two to three times a year.

Can you reduce the height of a very overgrown hedge? Yes, usually in one or two stages depending on the species. Daniel will tell you honestly if a hedge is too far gone to recover.

Do you take hedge clippings away? Always. Green waste removal is part of every hedge trimming job, and paths and driveways are blown down before we leave.

Can you look after strata blocks? Yes. Common-area gardens, lawns and nature strips for strata and townhouse complexes on a fixed fortnightly or monthly schedule, with one monthly invoice. Certificates of currency are available to strata managers on request.

What is included in a garden maintenance visit? Pruning and shaping, weeding beds and paved areas, edging, a general tidy-up and green waste removal. Mulching, hedge trimming, mowing and fertilising can be added.

Do you do one-off garden clean-ups? Yes, then we can move you onto a regular schedule so it does not get away again.

When is the best time to fertilise a lawn in Sydney? Early spring once the soil warms, and again in early autumn. A light feed in mid-summer helps lawns under heat stress.

Is weed spraying safe for kids and pets? We use registered selective herbicides applied by a trained operator, tell you how long to keep off the lawn (typically until the spray has dried) and tell you the product used on every visit.

Can you get rid of bindis? Yes. Treat in late winter and early spring before the bindis seed. Two treatments a few weeks apart usually clears them for the season.

Do you fertilise garden beds and hedges too? Yes. Plant fertilising for beds, hedges, natives and fruit trees can be part of the same lawn care visit.

Will pressure washing damage my pavers or concrete? Not when done properly. We use surface cleaners on large areas and adjust pressure for pavers, stone, render and timber. Pavers can be re-sanded afterwards if needed.

How long does a driveway take to pressure wash? A standard double driveway takes one to two hours including pre-treatment.

Do you pressure wash strata common areas? Yes. Paths, driveways, car parks and bin areas for strata complexes, one-off or scheduled.

Do you do landscaping for new builds? Yes. Soil prep, turf, garden beds, planting and mulching, usually in one or two stages.

Can you lay new turf? Yes. We prepare the base and supply and lay buffalo, couch or kikuyu turf to suit the site, then can follow up with fertilising and mowing.

How long does a landscaping project take? A front yard makeover is typically two to four days. Larger new-build gardens run one to two weeks. Daniel gives a timeline with the quote.

Do you offer maintenance after a landscaping project? Yes, and we recommend it, so the new garden establishes properly.

Are you insured? Yes. Fully insured with public liability cover for residential, strata and commercial sites. Paperwork is available on request.

Do you send someone different every time? No. We are a small local crew, so the people who quote your property are the people who do the work.

Do I need to be home? Daniel will confirm access arrangements when he quotes. Mention gates, codes or dogs in your enquiry. We text before each visit.

How do I pay? You get one simple invoice at the end of each visit or once a month, whichever you prefer. Daniel can answer any questions about payment methods.

Can I change my schedule? Yes. You can change the schedule at any time by contacting Daniel.

Can I send photos? Yes. Photos help Daniel price the job accurately. Attach them right here in the website chat using the paperclip button, or text or WhatsApp them to 0452 586 355, or email them to info@greatersydneylandscapes.com.au.

8. Things only Daniel can confirm

The assistant must not guess or promise any of these. It should say Daniel will confirm them:

- Any price, rate, minimum charge or discount.
- Exact availability, start dates, visit times or booking confirmations.
- Coverage for a suburb that is not listed in section 6.
- Any service not described in section 5, for example large tree removal, stump grinding, fencing, paving or retaining wall construction, irrigation installation, pool cleaning or gutter cleaning.
- Licences, qualifications, certificates or the ABN.
- Guarantees, warranties, promotions or refunds.
- Details of an existing booking, invoice or complaint.
